REPORTS

responsibilities of the Air Pollution Control Board. Senate Bill 286 deals with expiration of
July 1st after the year in which the board adopted them, unless they were specifically affirmed by

to readopt a rule, if there were no major comments by the public after the first notice to the Board would be selected based on recommendation to the Governor from business constituencies. It also requires that the next representative on the Air Board be a Title V permit holder and in the Senate Bill 192 deals with three issues related to the Office of Air Management. It clarifies some of the procedures for count of days when a permit or other regulatory decision is made. It also upon IDEM's issuance rather than after the appeals period is complete. The final issue of Senate Bill 207 deals with the definition of "source" for the purpose of the Title V operating permit knowingly or recklessly violate a rule or standard adopted by one of the boards. Senate Bill 211 would consolidate many of the legislative study committees and commissions into a smaller several groups dealing with environmental issues.

The Indiana Department of Environmental Management will form local steering standard. IDEM will work with these communities on the issues that will arise concerning implementation of the new ozone and particulate standards.

enforceable operating agreements program. There are three statutory requirements for IDEM to provide the Air Board with the above mentioned reports. This year, the three reports were

Ms. McCabe informed the board that IDEM will place the board agenda and board packet on the Internet. Hard copies will be available for board members and for the public, if desired.

individual at any time to see where a rule is in the development or promulgation process.

Mr. Rariden detailed the agenda for the board meeting.

until the March 4 board meeting because comments received in the final comment period raised legitimate concerns and should
